- 1.Integrity, honesty, self-confidence;
- 2.Team work and collective responsibility;
- 3.Practical-oriented and interactive training methods responding to international standards;
- 4.Industriousness, innovation and problem solving;
- 5.Customer-oriented service delivery;
- 6.Professionalism, ethics and discipline

FOREWORD

Dear readers,

The Rwanda Management Institute (RMI) remains firmly committed to strengthening management capacity across both the public and private sectors. Through our training, consultancy, research, and advisory services, we continue to cultivate competent, highly effective leaders and professionals who drive organizational excellence and support national development.

In this edition of our e-newsletter, we highlight key initiatives and training programs designed to equip professionals with practical, relevant skills for today's dynamic work environment. As we move forward, RMI continues to collaborate closely with public and private institutions, partners, and stakeholders to identify emerging needs, address skill gaps, and foster a culture of lifelong learning.

We are pleased to share these achievements and insights with you, showcasing RMI's ongoing contribution to capacity building.

We deeply value your engagement. Please feel free to share your thoughts, questions, and ideas through our digital and social media channels.

Enjoy reading!

Dr. Charline MULINDAHABI

Director General,

Rwanda Management Institute

RMI Awards ABDA Certificates to Big Data Training Participants

One of participants after receiving their certificates

On 28 August 2026, Rwanda Management Institute (RMI) awarded Associate Big Data Analyst (ABDA) certificates to participants who successfully completed a three-month Big Data training and coaching program held from 30 March to 26 June 2026 at RMI.

The training strengthened participants' practical skills in Big Data analytics and equipped them to work effectively with large volumes of data in an increasingly data-driven environment.

The ABDA certification, awarded by the Data Science Council of America (DASCA), is internationally recognized and validates the participants' competencies in Big Data analytics.

RMI congratulates all the graduates on this achievement and encourages them to apply their skills to support informed decision-making, innovation, and improved institutional performance.

RMI Concludes General Surgery Claims Verification Training for MMI Staff

MMI staff during the General Surgery Claims Verification training at RMI

On 4 September 2026, Rwanda Management Institute (RMI) concluded a five-day General Surgery Claims Verification Training for MMI staff at Muhima Campus. The training aimed to strengthen participants' understanding of common surgical procedures, techniques, and the clinical relevance of surgical consumables.

The programme covered key areas including digestive system procedures, anaesthesia, gastrointestinal cancer resections, surgical emergencies, thyroid and breast surgery, hernia repair, and minor surgical procedures. Participants also explored perioperative care, insurance workflows, high-cost consumables, patient safety, clinical documentation, insurance coverage, and cost management.

The training provided a platform for participants to discuss practical challenges, complex cases, and common pitfalls in insurance claims, linking clinical knowledge with effective claims management.

The programme is expected to strengthen professional capacity, promote collaboration between medical practitioners and insurance staff, and support best practices in patient safety, documentation, and healthcare cost management.

RMI Concludes Risk Register Development Workshop

RMI staff and facilitators from MINECOFIN during Risk register development workshop

On 24 July 2026, Rwanda Management Institute wrapped up a comprehensive 5-day Risk Management Training Workshop for its Risk Champions.

Guided by ISO 31000:2018 standards, the team collaborated across Units to build and refine practical risk registers.

During the workshop, participants identified strategic and operational risks, assessed the likelihood and potential impact of those risks, and developed practical implementation and tracking tools.

This milestone underscores RMI's deep commitment to good governance, accountability, and evidence-based planning.

Closing message

Dear readers,

As we bring this edition of the RMI Newsletter to a close, we invite you to reflect on the knowledge, experiences, and achievements shared throughout these pages. Each story reflects our ongoing efforts to strengthen capacity, promote professional development, and contribute to effective and responsive management in Rwanda.

We thank our readers, partners, clients, and stakeholders for being part of this journey. Your engagement and collaboration continue to inspire us to create meaningful learning opportunities and deliver solutions that respond to the evolving needs of our society.

We also encourage you to stay connected with RMI through our official communication platforms and to share your feedback, ideas, and suggestions with us. Your views are valuable in helping us continuously improve our services and ensure that they respond to your expectations and needs.

We look forward to sharing more stories, insights, and milestones with you in our upcoming editions.

Thank you for staying connected with RMI.
